ACCELERATE YOUR CAREER

Join an innovative chemical technology innovator, and an international team with various backgrounds in a culturally diverse environment. All employees have a voice and opportunities to develop their careers.

What are your expectations?

Technical Support Specialist

Due to the success of our rapidly growing company, we are looking for a technical support specialist to strengthen our operations team.

Location:	Office based in Liverpool, UK
Contract:	Permanent, full time
Compensation:	£18-22k depending on experience and suitability for the role (+ company's benefits)
Start date:	ASAP

While we rely upon some strong science, we also believe that the success of a company is built through its people. Therefore, we are looking for a motivated individual who wants to join us and help us harnessing tomorrow's challenges of our industry, is that you?

About LCC:

We are a diverse and international chemical technology innovator, on a mission to accelerate discoveries through the provision of novel scaffolds and building blocks.

LCC has designed and synthesized a library of novel, diverse, 3D-rich building blocks, which are used to support an international customer base. Our scaffolds can be applied to technologies across our four main product pillars: DEL, FBLD, Linkers (for PROTACs etc.), and virtual screening with our 3Discovery™ Virtual Library.

Through an ethos of purposeful curiosity, LCC's goal is to help the development of high-quality drugs, in order to bring new drugs to market, faster, better, and easier.

Job description:

As part of the TSS team, you will be part of a team which interacts with all departments of the company as well as communicate with our customers about their current and upcoming projects. From generating new leads which lead to sales all the way through to shipping the order to the customer, the TSS team at LCC is central to our operations. You will also be responsible for providing technical support internally to our other departments both in a scientific and an administrative capacity.

The successful candidate will acquire significant support from LCC's expert scientists and be trained in expert chemical data management and molecular specification requirements for modern-day medicinal chemistry.

Job responsibilities:

- Engage with new and existing customers about their projects to generate sales.
- Provide communication and support to the customer during the sales process.
- Be responsible for the maintaining of LCCs customer, sales and stock data.
- Ensure the content on our website and social media is up to date.
- Plan, book and attend conferences worldwide.
- Coordinate the shipping activities.
- Work collaboratively with the other departments at LCC, provided administrative and technical support.

Profile:

- BSc. / MSc. in chemistry
- General IT competency (including good knowledge of Microsoft Office) and confidence to learn new software programmes
- Excellent organisational and communication skills
- Good time management and interpersonal skills
- Previous experience in a chemistry company would be a plus
- Soft skills: A positive attitude and the willingness to adapt/learn is always a good starting point!
- Applicants must be eligible to work in the UK

To apply for this position, please send us your CV together with a cover letter at
